doValue Greece Receives Great Place to Work Certification for the 2nd Consecutive Year

doValue in Greece has achieved a significant distinction by being certified as a **Great Place to Work®** for the second consecutive year.

The certification is granted by the organization **Great Place to Work® Hellas** and is based on a methodical and thorough evaluation of the organization, according to specific criteria derived from a comprehensive questionnaire completed by employees of the participating companies.

It is worth noting that the result, which achieved a high trust index, reflects the company's work environment as evaluated through the direct, anonymous, and confidential assessment conducted by the employees themselves regarding their experience in the workplace.

The recognition of doValue Greece as a Great Place to Work is a significant acknowledgment, coming for the second consecutive year with a high score from the company's staff and a very high participation rate. In 2025, 94% of employees took part in the survey, a percentage that clearly demonstrates their strong commitment, trust, and active involvement in shaping a modern, human-centered, and supportive work environment.

The Great Place to Work certification places doValue in Greece among the companies that consistently earn the appreciation of their employees, recognizing the value added to corporate culture by the positive, inclusive, and encouraging work environment that is followed with consistency and commitment.

As the company's CEO, Mr. Tasos Panoussis, stated:

"The Great Place to Work certification is especially valuable to us because it reflects the relationship of trust with our people. The employees of doValue Greece appreciate the daily, practical implementation of our commitment to treat every employee with respect for their personality and contribution, as well as understanding of individual and family circumstances. Our main concern is to create a modern and efficient work environment, where every employee finds the support, they need and the opportunity to maximize their professional prospects within a company that is constantly improving and turning challenges into opportunities for everyone."
